## Canada's Best Network Has Arrived in Saskatchewan.

Saskatchewan residents now have access to the best network, HSPA (4G) that features the nation's fastest wireless speeds, largest coverage area and the best devices.

### The Largest Network

Do more things in more places on Canada's largest 4G network, covering 96% of the Canadian population.

### Great Quality

With clear call reception and the fewest call failures, you can count on Canada's reliable 4G network to keep you connected on every call.

### The Fastest Network

Download attachments, surf the Web, and run your favourite apps on Canada's fastest network. With peak 4G speeds of up to 42 Mbps, you can't get faster.

### The Best Devices

Bell leads the market with seven 4G dual core devices available.

**Please contact your account representative today to find out more about the new HSPA (4G) network in Saskatchewan.**

With compatible devices. Based on comparison of national networks: (a) fastest network, according to tests of average upload and download speeds in large urban centres across Canada; (b) largest network, based on total square kms of coverage; and (c) fewest call failures based on tests including network access failures, blocked calls and dropped calls in large urban centres across Canada; all on the shared HSPA+ (4G) network available from Bell, vs. Rogers HSPA/HSPA+ network. Excludes roaming partners' HSPA and GSM/EDGE coverage in certain parts of Manitoba. Speed may vary due to topography, environmental conditions, device type and other factors. See [bell.ca/network](http://bell.ca/network) for details.
