December 1, 2011

**To: All Eighth District Local Unions**

Sisters and Brothers:

The 2012 elections, at both a state and federal level, will have great impact on working families. As was shown in the 2010 election cycle, if we are not diligent and prepared to thwart the war on the middle class, we all have much to lose.

To that end, the Eighth District has scheduled one-day activist trainings for Local Union Registrars and members who may have an interest in making a difference this election cycle. To promote the greatest participation from our Local Unions, the training sessions have been scheduled in three locations throughout the District, and will be held on Saturdays.

Attached to this letter is an information sheet and Registration Form. Again, all interested members, spouses and family members are encouraged to attend. Please complete a registration form for each person attending, and return to the Eighth District Office no later than **January 6, 2012**. Participants will be provided a copy of the training agenda upon registration.

Special room rates have been negotiated at the hotels listed on the registration form. Please contact the hotels directly if you need room reservations.

I hope to see you during the trainings.

Fraternally,

Ted C. Jensen  
International Vice President
