--Lonnie R. Stephenson, IBEW International President

TRUMP HAS FAILED FREIGHT WORKERS

This administration's:

Department of Transportation

- Spent months lifting safety regulations for railroad carriers instead of protecting workers¹

Federal Railroad Administration

- Failed to prevent industry from prioritizing Wall Street profit and Precision Scheduled Railroading over safety and good jobs
 - Turning a blind eye to excessive train length²
 - Neglecting to rein in industry as safety worsened³
- **Granted excessive safety waivers** during COVID response
- Provided oversight only after rail labor called out the carriers' dishonest workforce shortage claims⁴

National Mediation Board

- Stacked rail labor board with **anti-worker members** who made it easier for railroad workers to lose their union and collective bargaining⁵
- Prevented fair resolution of labor disputes⁶

TRUMP'S ACTIONS THAT HURT RAILROAD WORKER SAFETY

- **Failed to act during a government shutdown** that resulted in the delay of investigations by the National Transportation Safety Board⁷
- Trump **threatened to veto the largest infrastructure bill ever considered** by the U.S. House of Representatives⁸
 - A bill that would have addressed the critical safety and workforce issues of PSR and was criticized by railroad carriers⁹
