Hurricane Katrina Recovery
“Thank You IBEW”

Dear Ed;

Since August 29, 2005 when Hurricane Katrina hit the Gulf coasts of Alabama, Mississippi and Louisiana our resolve from the very beginning was to bring back the largest Cane Sugar Refinery in the western hemisphere better and stronger than before Katrina!

I am proud to say that our plant has come back stronger and better. We have taken back what Katrina tried to take from us.

Members of the IBEW thru-out the various stages of our recovery campaign have been instrumental in our success story.

Thru the IBEW’s electrical craftsmanship and their commitment towards accomplishing the task at hand a great plant is once again up and running in America.

Our indebtedness to the IBEW members will never be forgotten at our Refinery.

Again thank you IBEW so much on behalf of the Employees of The Chalmette Refinery and American Sugar Refining, Inc.
